Breast cancer affects one in eight women. Education and timeliness of care make an impact on breast cancer survival rates, particularly for underserved communities.

NBCF was founded to fill in the gaps of cancer care, ensuring every woman has the information she needs to get through each step of her breast cancer journey. Our vision is that no one will navigate breast cancer alone.

Our mission is to provide help and inspire hope to those affected by breast cancer through early detection, education, and support services.

Screening and Diagnostics
Through our partner facilities, we provide free mammograms and diagnostic services for women in need.

Patient Navigation Program
Through our partner facilities, we provide patient navigation services to help women navigate the complex cancer care system.

Education and Outreach
Together with our outreach partners, we’re empowering women to take control of their health by educating them about their bodies and providing important breast cancer resources.

Support Services
We provide critical support for patients at every step—whether they’re newly diagnosed, facing a terminal diagnosis, or facing breast cancer alone. Our goal is to ensure every patient and survivor has access to emotional support, guidance, and resources throughout their journey.
“Janelle, you have breast cancer.” Those words still ring in my ears with the disbelief and dismay I felt forty-three years ago. What is one supposed to do or think when diagnosed with breast cancer? It’s a natural reaction to have a sense of panic or fear, but there must be more to take you through your journey dealing with breast cancer.

There is more. I turned to my greatest source of Hope, my faith in God. That sustaining hope led me to create NBCF, along with my late husband, Neal. We knew women needed a safe harbor, a place to find caring friends, direction to find the best resources...a place called home.

If you visit our national headquarters, you will see a mural in the entry that depicts a train traversing through a winding terrain. Stops on the journey show NBCF’s programs, places to refresh and gather resources, and steps to specialized care as you find hope along the way.

We have joined together with the best medical facilities and teams of health experts in the nation to provide services through our National Mammography Program. Our support expands to navigators who help guide women through resources to overcome healthcare barriers.

The importance of caring for the whole person includes the expansion of our breast health education, support groups, and metastatic breast cancer retreats. We train teams of volunteers and Community Ambassadors to deliver education and assist in packing and distribution of our HOPE Kits, reaching almost 50,000 breast cancer patients since the beginning of the program.

NBCF values our financial oversight as we care for those affected by breast cancer. Our volunteers, sponsors, donors, Board of Directors, and Advisory Council help us carry out our mission. Thank you for supporting our Journey of Hope.

Janet Napolitano
FOUNDER & CEO
National Mammography Program

NBCF has partnered with medical facilities* in underserved communities across the U.S. by providing a total of 300,000 free breast cancer screening and diagnostic services. In 2022, NBCF partnered with 40 hospitals and provided 7,140 services.

There is currently no known cure for breast cancer, and its early diagnosis is critical to survival. When breast cancer is found in the earliest, localized stage, the 5-year relative survival rate is 99%.

*Please see previous page for a full list of Active Partners for 2022

SERVICES PROVIDED
- Clinical Breast Exams
- Screening Mammograms
- Diagnostic Mammograms
- Digital Breast Tomosynthesis
- Ultrasounds
- Computer-Aided Diagnostics
- Biopsies

Patient Navigation Program

This year NBCF partnered with 20 hospitals offering patient navigation, and provided 136,251 services to 100,448 women. Virtual navigation was offered via email and phone to 925 people in both English and Spanish.

WHAT NAVIGATORS DO
- Educate those in need about the importance of screenings
- Eliminate barriers of financing, transportation, childcare, and language
- Answer questions about a breast cancer diagnosis
- Ensure patients keep treatment appointments
- Follow up with survivors

NAVIGATION SERVICES
- Outreach
- Mammograms
- Abnormal Results
- Biopsy/Work-Up
- Diagnosis
- Treatment
- Survivorship/Follow-Up

Breast Health Education

Underserved populations face numerous barriers to accessing health services and adopting screening measures—from socioeconomic, linguistic, and cultural barriers to lack of knowledge. NBCF provides vital breast health education to those in need, empowering them to be more proactive about their breast health. Trained volunteers review educational resources with guests and connect them with local medical facilities if they need access to screening and diagnostic exams.

In 2022, NBCF Delivered
- 26 Breast Cancer Awareness in the Workplace presentations to over 2,000 individuals.
- Eight outreach events hosted across the U.S. through Convoy of Hope, resulting in 1,370 women served.
- 63,192 e-book downloads through the NBCF website.

I received your package yesterday. Thank you so much for helping with educating the vulnerable population that I serve. I very much appreciate your time and resources!”

MELISSA ALDRIDGE, Elderly & Disabled Service Coordinator for Decatur Housing Authority
Thank You

We are grateful for the generous donors, fundraisers, and partners who support our mission of Helping Women Now®. Our funding provides resources and life-saving programs so that no one navigates breast cancer alone. We are committed to financial transparency with the funds we are graciously trusted to steward. Full financial reports are always available to view at nbcf.org.

Metastatic Breast Cancer Retreats

In 2022, NBCF funded three retreats for patients and caregivers at Saint Luke’s Cancer Institute, Kansas, and Abington Memorial Hospital, Pennsylvania.

Metastatic breast cancer retreats are a powerful way for NBCF to show support for women with all stages of breast cancer. Retreats focus on the diagnosis, the prognosis, and available resources, allowing patients to identify what they can control and what their true hopes and fears are so they can fully enjoy life and their loved ones.

HOPE Kits

We distributed 16,380 HOPE Kits to patients undergoing breast cancer treatment in 2022, including 46 Metastatic Kits. NBCF hosted 78 packing parties with local volunteers.

The HOPE Kit is a tangible expression of hope to provide support to women currently undergoing breast cancer treatment. These kits are filled with thoughtful items which are known to soothe some of the side effects from treatment.

Support Groups

In 2022, NBCF hosted 34 monthly national and local support groups.

Having the support of others is an important part of breast cancer survivorship. Research shows that taking part in support groups, where you both give and receive help, is an effective way to reduce the stress and anxiety that can come with a breast cancer diagnosis.

Community Ambassadors

This year 3,145 individuals were served by 60 trained ambassadors at 28 events.

NBCF’s community ambassador program trains and equips community leaders to share breast health information and promote NBCF’s screening and navigation programs to those in need.
